

Sleep.
Beautifully.

When form meets function

Beyond the advanced algorithm, whisper quiet operation, and connected device integrations lies a machine like no other. Introducing the Starck CPAP device, by Philippe Starck.

European Design. European Manufacture.

The Starck device combines cutting edge sleep technology with a sleek exterior. The result is a less intrusive device, one that delivers absolute efficacy for the user whilst blending seamlessly with their home environment. Form meets function. Power meets simplicity. Sleep meets Starck.

Beautifully Simple

Absolute efficacy

The Starck CPAP device's advanced algorithm treats Obstructive Sleep Apnea with clinical efficacy using continuous automatic adjustment. The right amount of air for you, delivered at the right time, for a far better – and safer – night's sleep.

Optimal comfort

Patented Sefam humidification technology ensures the optimal level of humidification for you. Then, the heated hose adjusts the air temperature to maximise your breathing comfort. And it does it all with whisper quiet efficiency.

Perfect clarity

The simple, user-friendly digital display can be activated by touch or remotely, using the Sefam Access Lite App from your mobile device. All details are available at a glance, accessed via an intuitive interface to keep you informed.

Discover the art of beautiful sleep. Discover the Starck CPAP device, by leading European CPAP brand Sefam Medical. For more information on Sefam and your nearest stockist, visit sefam.com.au.
